

WEATHER

TODAY AND SUNDAY—Clear and Warm. Light winds. Little change in temperature.
 EDMONTON TEMPERATURES—Friday, maximum 74; overnight low 46. Estimated high today, 75. Estimated low today, 47. Sunday, maximum 74; overnight low 46. Estimated high today, 75. Estimated low today, 47.
 SUNDAY SUNRISE—5:13. SUNSET—19:04.

SIXTY-SEVENTH YEAR

Heads Accountants

At the Port William convention of the Society of Industrial and Cost Accountants of Canada the new president named is J. A. Tupper of Edmonton. He succeeds R. S. M. Auman of Toronto. Mr. Tupper is manager of the Sunland Hotel Company, and resides at 21046 209 street.

Tighten Security Under New Act

By DICK JACKSON

Edmonton Bulletin Ottawa Bureau

OTTAWA, July 5.—As a direct result of the Soviet spy investigation that last year rocked Canada, rumblings of which still are heard in Canadian courts, security regulations binding the Dominion's 30,000 government employees are being tightened under a new civil service act.

The new amendments to the act became known this morning, and greater security is provided through requirement of all civil servants to take the oath of allegiance and of secrecy.

Previously, only the permanently employed civil servant was required to swear these oaths. Of the government staff, in all parts of Canada are only some 30,000 permanent civil servants, the balance, and vast majority, some 30,000 others, being only temporarily employed.

The new provision requiring the oath from all—temporary and permanent—government employees results directly from the spy investigation in the case of the late Sir John A. Macdonald.

The fact that all civil servants arrested in the espionage probe were temporarily employed.

The oath of secrecy reads: "I, (A.B.) solemnly and sincerely swear that I will deliver up to the authorities all information which I may come to know or have access to which is of a confidential nature, and which I will not, without due authority in that behalf, divulge or make known any matter which comes to my knowledge by reason of such employment. So help me God."

Diamond Skulls Won By John B. Kelly, Jr.

By John B. Kelly, Jr.

HENLEY-ON-TAMES, England, July 5.—(AP)—John B. Kelly, Jr., won the Diamond Skulls of the Royal Henley Regatta today to climax a 26-year campaign of victory that started when his father was denied the right to compete in the 1900 event because he once was a bricklayer. The 26-year-old university of Pennsylvania student defeated Carl Townsend of Norway, by eight lengths in 8 minutes and 49 seconds.

Shipping Alerted As Mines Found

HALIFAX, July 5.—(CP)—Shipping was warned today that mines—possibly the remains of the fleet scow by a German U-boat in the vicinity of the Strait of Cansu—had been found near the Harbor and Ship Harbor on Nova Scotia's eastern shore. A guard is standing by a mine washed ashore at Gerald Island near Ship Harbor, waiting for a mine mine disposal squad. A second mine was bobbing about in rollers off O'Leary in the vicinity of Ship Harbor.

Miner Dies

Julius Hennrich, 49-year-old Nordegg miner, died in the Nordegg hospital Friday as a result of injuries sustained in a mine accident last June 22, according to RCMP. At first the miner was reported to have suffered ruptured lungs. However, RCMP officials stated an autopsy will be performed to determine the cause of death.

Bevin Gives Soviet Union Blunt Warning

LONDON, July 4.—(AP)—Foreign Secretary Bevin, discussing Britain's desires for peace, warned Russia last night against provocations and carrying provocations "too far."

"I love the Russian people," Bevin said. "The ordinary man in the world seems to think that the British obsession for peace is something to make people who are not so peace-loving as we are to feel that they are being provoked."

"They must not be surprised—and indeed the evidence of the last two struggles indicates—that we can carry provocation too far."

"The people will one day say: 'We are tired of this. There comes a moment when we say: "We have had enough."

"I say to my friends: 'Don't provoke the situation.'"

IN AN ADDRESS before the American Society of United Nations, Bevin continued in his address commemorating American Independence Day. "The ordinary man in the world seems to think that the British obsession for peace is something to make people who are not so peace-loving as we are to feel that they are being provoked."

"They must not be surprised—and indeed the evidence of the last two struggles indicates—that we can carry provocation too far."

Cost-of-Living Up 1.8 Points During May

OTTAWA, July 5.—(CP)—A rise of 1.8 points during May in Canada's cost-of-living index was reported yesterday by the bureau of statistics. At June 1 the index was 134.8, computed on the base 1935-36 equals 100.

The June index figure was 7.3 points higher than at Jan. 1 and 13.3 points above its level at June 1 last year. Increase in the index since August, 1939, was 33.8 per cent.

All six component groups of the index showed an increase in May while oranges and lemons were slightly lower.

The food index rose from 154.9 at the time of May 1937, compared with 147.1 a year ago. Among individual food items, butter, eggs, potatoes and cabbage showed increases in May while oranges and lemons were slightly lower.

Canada Must Assist Strengthening of UN

By George Kitchin

OTTAWA, July 5.—(CP)—The real cornerstone of Canada's foreign policy must be the growth and strengthening of the United Nations as an agency to counteract the forces which divide the world into "two great groupings," External Affairs Minister St. Laurent told the Commons yesterday.

AT THE SAME TIME, he asserted that "we must not completely allow any one state or group of states to use the United Nations for their own selfish national or group purposes."

Promoting foreign policy and the house began study of external affairs estimates, but said the UN must be "a forum for the expression of the collective will of all the peoples and not just a sounding board for false and misleading propaganda."

Speaking for the Progressive Conservative opposition, Gordon Groulx (PC-Peul) said that whatever his disagreements at home Canada should strive to be a "single voice in international council. Angus MacInnis (CCP-Vancouver East), acting CCP leader, said one day in the achievement of peace was the desire of Canada and the United States to free themselves of the "restrictions" of wartime cooperation and asserted European reconstruction was being retarded by a conflict of economies.

Reconstruction Minister Howe announced the signing of a reciprocal agreement with Sweden for air service between the two countries. He said Canada did not intend to operate a service to Sweden in the near future.

Opening the external affairs debate, Mr. St. Laurent expressed the hope that Canada's collaboration with the United States in the north could be extended to "other interested areas."

"On our part, there is no reason why this should not be done," he said. "The international picture was not a cheerful one," he said there was no reason to be "cautious." On the other hand it would be folly to ignore the "realities" of the world and to go ahead and that those difficulties might possibly develop into serious dangers.

WHAT MIGHT BECOME a "serious danger" to the peace of the world was its division, both politically and ideologically, into two great groupings. Some method must be found to make possible peaceful co-operation, he said. "You're amazed at the results!"

It's Love!
WASHINGTON, July 5.—(BUP)—Two policemen saw George Munich, 22, strike Lillian May Barrett, 30, they arrested him, asked him why he did it and he said: "I wanted to find out if we were still engaged and the only way I could tell it was to beat it out of her."

Turkish Aid Chief

(Continued from Page 1)
disputed they will accept. Statements from other capitals gave reason for belief that five others—Turkey, Belgium, Switzerland, Rire and Iceland—also would attend. The UN's 33 member states and observers said they expected at least 12 countries to reply favorably. Among those that probably will not, they said, are Yugoslavia, Hungary, Bulgaria, Romania and all Soviet bloc influence.

Britain and France, which have laid the groundwork for the conference, issued the invitations Thursday night. The day before they had failed to get agreement from Foreign Minister Molotov to a program of European non-cooperation to take advantage of the UN's 33 member states help made by State Secretary Marshall June 3.

Edwin C. Wilson, U.S. Ambassador to Turkey, who has been named by President Truman as chief of the American Aid Mission to Turkey.

Warmer Weather Is Expected Here

Clear and continued warm weather is in the outlook for today and Sunday, with light winds prevailing. Little change in temperature is expected.
The maximum temperature yesterday was 74 above at 6 p.m. and the overnight low registered 46 above at 6 a.m.
The estimated low temperature tonight is 48 above. Expected high temperature Sunday is 80 above.

Soviet Warned

(Continued from Page 1)

ogy, or such things as material determination or christian religion. "AMERICA AND Britain will continue to think alike. I beg the UN's 33 member states to go on with its great mission. As long as I am foreign secretary we will work with you."
Bevin said that the "correct despatch" of the Soviet Union in Moscow conference that the USSR was not to be had off as some people believed. He suggested that the Soviet Union might be able to win the British war trade agency. With the breakdown of the three-power talks in Paris and the African-aid plan, and the decision of France and Britain to go alone, the UN's 33 member states on their own, informed foreign sources in London said the capital said it believed Wilson's chance of making a grain deal had dwindled.

Flying Saucers

(Continued from Page 1)
residents said flying discs were spotted above the Caks amusement park. Two police patrol cars said they saw them, too, "up by the going east."
A FEW MINUTES later Sheriff Brinkley said he saw a flying disc at 22 in a line going like a ball to the west. Officials of the state police in Vancouver, Wash., sheriff's office, and the Vancouver city police said they saw nothing. Flashing discs flying very high.

BOISE, Idaho, July 5.—(AP)—Capt. E. J. Smith, United Air Force pilot, advised the traffic control tower here last night that he and his co-pilot, First Officer Stevens, had shined from "three to five" flying discs at an altitude of 1500 feet 15 miles southwest of Ontario, Oregon.
Smith said the discs "were as big as airplanes but definitely were not aircraft."
The control tower said Smith called shortly after his flight from here at 11:02 p.m. (CDT) to say he saw the objects southwest of Ontario which is about 65 air miles from here.
He first said he saw five of the objects, that they definitely were aircraft, were flat on the bottom and were disc-shaped. Then he transmitted another message saying he could see three in a cluster, with another flying off to one side.
Smith said First Officer Stevens counted five of the objects. He reported he had no way of estimating their speed.
The London office of the Eaton company, which is in the part of the two buyers will report to company directors on the conclusion of their present tour of Canada.

Says Sale British Goods Is Uncertain

Climbing prices in Britain are making sale of British goods to Canada uncertain for the immediate future although a record business was done last year, Mr. Grant, resident buyer in London, England for The T. Eaton Co. Ltd., said on arrival here Saturday.
With the Eaton company in Britain for 26 years, Mr. Grant is making his first tour of Canada since before the war, visiting all stores of the company from coast to coast.
He is accompanied by Robert Chavanne, Paris resident buyer for the firm in France, Belgium and Switzerland.
House furnishings, men's wear, boots and shoes have been purchased in Britain in large quantities by the Eaton firm in the past.
The Paris office concentrates chiefly on the purchase of perfumes and jewelry.
Mr. Grant pointed out that the adverse dollar situation confronting Britain, coupled with steadily mounting prices of British goods, is slowing down overseas shipments to Canada and elsewhere. He hopes that a solution to the problem will be found soon, in the meantime it is pretty well a matter of marking time.
Mr. Chavanne was in Paris all through the German occupation and was compelled to do other work during the war years. The offices of the Eaton Company were closed by the Nazis. There are 40 persons working in

Invite Russia

(Continued from Page 1)
disputed they will accept. Statements from other capitals gave reason for belief that five others—Turkey, Belgium, Switzerland, Rire and Iceland—also would attend. The UN's 33 member states and observers said they expected at least 12 countries to reply favorably. Among those that probably will not, they said, are Yugoslavia, Hungary, Bulgaria, Romania and all Soviet bloc influence.

Britain and France, which have laid the groundwork for the conference, issued the invitations Thursday night. The day before they had failed to get agreement from Foreign Minister Molotov to a program of European non-cooperation to take advantage of the UN's 33 member states help made by State Secretary Marshall June 3.

Edwin C. Wilson, U.S. Ambassador to Turkey, who has been named by President Truman as chief of the American Aid Mission to Turkey.

Warmer Weather Is Expected Here

Clear and continued warm weather is in the outlook for today and Sunday, with light winds prevailing. Little change in temperature is expected.
The maximum temperature yesterday was 74 above at 6 p.m. and the overnight low registered 46 above at 6 a.m.
The estimated low temperature tonight is 48 above. Expected high temperature Sunday is 80 above.

Soviet Warned

(Continued from Page 1)
ogy, or such things as material determination or christian religion. "AMERICA AND Britain will continue to think alike. I beg the UN's 33 member states to go on with its great mission. As long as I am foreign secretary we will work with you."
Bevin said that the "correct despatch" of the Soviet Union in Moscow conference that the USSR was not to be had off as some people believed. He suggested that the Soviet Union might be able to win the British war trade agency. With the breakdown of the three-power talks in Paris and the African-aid plan, and the decision of France and Britain to go alone, the UN's 33 member states on their own, informed foreign sources in London said the capital said it believed Wilson's chance of making a grain deal had dwindled.

Flying Saucers

(Continued from Page 1)
residents said flying discs were spotted above the Caks amusement park. Two police patrol cars said they saw them, too, "up by the going east."
A FEW MINUTES later Sheriff Brinkley said he saw a flying disc at 22 in a line going like a ball to the west. Officials of the state police in Vancouver, Wash., sheriff's office, and the Vancouver city police said they saw nothing. Flashing discs flying very high.

BOISE, Idaho, July 5.—(AP)—Capt. E. J. Smith, United Air Force pilot, advised the traffic control tower here last night that he and his co-pilot, First Officer Stevens, had shined from "three to five" flying discs at an altitude of 1500 feet 15 miles southwest of Ontario, Oregon.
Smith said the discs "were as big as airplanes but definitely were not aircraft."
The control tower said Smith called shortly after his flight from here at 11:02 p.m. (CDT) to say he saw the objects southwest of Ontario which is about 65 air miles from here.
He first said he saw five of the objects, that they definitely were aircraft, were flat on the bottom and were disc-shaped. Then he transmitted another message saying he could see three in a cluster, with another flying off to one side.
Smith said First Officer Stevens counted five of the objects. He reported he had no way of estimating their speed.

Arab Communists Reject Partition

By EDWARD CURTIS
JERUSALEM, July 5.—(AP)—A spokesman for Arab Communists declared today that a group rejected proposals for partitioning the Holy Land and supported the action of the Arab Higher Executive in rejecting the United Nations special committee investigation of the Palestine problem. The Arab Communists, in a statement, said they were in favor of the Jewish state, but before 1, an official Zionist demand for a Jewish state in the Holy Land.

Drilling Delayed At Ludac Well

Breakdown of a compound derrick which joins two powerful diesel motors late Friday halted operations on Imperial Oil's Ludac No. 3 well, one of the most promising in the Edmonton oil field.

No further drilling has occurred since yesterday when at 5:00 feet an encouraging sign was yielded in 300,000 cubic foot gas flow and more than 2,000 feet of light crude in a drill stem test on the No. 3 well.

Officials could not say when drilling would be completed and repairs resumed. A lengthy delay, however, could complicate matters with drilling mud now at working consistency in danger of thickening.

Depits on Imperial's other property: Muneg, 3,284; Morinville, 1,321; Looma, 4,463; Paddle River, 1,321; Battle Lake, 1,933; Ludac No. 3, 4,566; No. 5, 5,798; No. 2, 3,817. Production up to Saturday at 8 a.m. Imperial Ltd. No. 1, 1,260; No. 2, 1,357; No. 3, 1,487; No. 4, 1,358 barrels respectively.

Week-end reports on holdings shows considerable increase in the Edmonton field.
Gulf Research and Development Company has added to their already more than 2,000,000 acres in the proven area of the new Edmonton oil field. This lies about 10 miles north of Edmonton, flanking Imperial's holdings and in juxtaposition with a number of holdings by independents in the Perryville-Texas area.

South of Red Deer, 30,424 acres have been added to the holdings of Husky Refining Company. Another 18,000 acres in the proven area of the new Edmonton oil field. This lies about 10 miles north of Edmonton, flanking Imperial's holdings and in juxtaposition with a number of holdings by independents in the Perryville-Texas area.

Imperial has added another 19,440 acres to its holdings on the east side of their successful Ludac region. This is located east of Bruderheim. Reports on McColl-Froneman's drill stem tests on two of their three northern wells were not announced Saturday. Friday, Imperial said they saw nothing. Flashing discs flying very high.

BOISE, Idaho, July 5.—(AP)—Capt. E. J. Smith, United Air Force pilot, advised the traffic control tower here last night that he and his co-pilot, First Officer Stevens, had shined from "three to five" flying discs at an altitude of 1500 feet 15 miles southwest of Ontario, Oregon.
Smith said the discs "were as big as airplanes but definitely were not aircraft."
The control tower said Smith called shortly after his flight from here at 11:02 p.m. (CDT) to say he saw the objects southwest of Ontario which is about 65 air miles from here.
He first said he saw five of the objects, that they definitely were aircraft, were flat on the bottom and were disc-shaped. Then he transmitted another message saying he could see three in a cluster, with another flying off to one side.
Smith said First Officer Stevens counted five of the objects. He reported he had no way of estimating their speed.

Italian Reds Plan 'War on Government

ROME, July 5.—(Reuters)—The Italian Communist party today issued a formal "declaration of war" on the Christian Democratic government of Alcide De Gasperi, Italian prime minister. The party's executive had been instructed to make all necessary contacts with the leaders of the Socialist party and of all other democratic parties, with the aim of co-ordinating action to secure a government representative of all popular Republican forces, a communist statement.

King Carol Weds

RIO DE JANEIRO, July 5.—(Reuters)—Former King Carol of Romania married Magda Lupescu, his titan-haired woman friend for many years, in a bedazzling ceremony last night at Copacabana Palace hotel. It was announced here today that Mrs. Lupescu is seriously ill and physicians said today she may die within 24 hours.

Major and Minor Notes

By John Oliver

AS you read this column, the various examining organizations and institutions will have completed their scrutiny of candidates for certificates in various grades, and the 1946-47 musical season finally will have been bundled up and put away with things that are past—but not forgotten. This has been a memorable season in many ways, and will not be placed readily in the limbo of things that no longer come to mind. In recent days and weeks, examinations in music and high schools, as well as in universities and places where music is taught, have been of prime importance, and have transcended most other

JOHN OLIVER

In view of the fact that examinations are in the minds of many teachers, parents and students, it might not be amiss to recall that last week, a distinguished musician was here conducting tests on behalf of the Royal Schools of Music—the Royal Academy and Royal College, of London, Eng. The musician in question was Colin Taylor, who has been an examiner, but as a writer on music, a teacher, performer and composer. Recently he completed a book dealing with the examination question, and there is every expectation that it will be published before this year is ended.

As a consequence of his standing in the examination field, and in music in general, some of his remarks on this vexed and laborious question might prove enlightening. "Examinations are complementary to music education, and should never be a goal in themselves," he

Girls Pipe Band Is Making Drive to Obtain Additional Uniforms

The Edmonton Girls Pipe Band, which, in its short career, has firmly entrenched itself in the good graces of city and district residents, is seeking assistance in obtaining new uniforms. James Armstrong, 1143 St. Street, secretary-treasurer of the band, heads a committee.

From artistically from early years, a player could not expect to scale the heights required by concert performance. With the demise of the Empire theatre, the wish became stronger, for Edmonton was all but left without suitable places for concerts.

New comes word from the Manitoba capital, that a magnificent new \$1,500,000 City of Winnipeg Arena is contemplated, and a by-law to authorize the expenditure will be submitted to the burgesses at the next civic election. And what an arena it will be!

The central feature will be the arena, which will cost approximately \$1,000,000, and will seat 15,000 persons. An unusual feature of the design is that a considerable portion lies below ground level. This will result in a considerable saving of building costs, as it reduces foundation ex-

posed to the city. The party also came to the conclusion that sheet music still is in short supply. The reason for this, of course, is the general shortage of paper that prevails throughout the North American continent. As a result, many standard works are unavailable and are awaiting re-printing. Many new works, which in the ordinary course of events would have been published, are remaining in manuscript. As an instance of the shortage, I am directed to advise that an English paper recently, in which it was announced with no little pride, that some of the Beethoven piano sonatas had been re-printed and again were available.

Now that the machinery for next year's festival has been set in motion the various provincial committees are expected to get right ahead and complete details as rapidly as possible.

THAT organization of attractive and capable young women known as the Edmonton Girls Pipe Band, is out to develop and expand, according to James Armstrong, 1143 St. Street. Although formed only a short time ago, the band already has won for itself a firm place in the affection of Edmontonians. The girls have given generously of their time and ability in support of public functions. They have turned out for parades, memorial and other services, and in general have put forth a strong effort to take an important place in community life. But, as is the case with most activities, a band cannot be run on a show string, good will or good intentions. And with wear and tear, and increasing membership, more uniforms are needed. So, if by any chance, you should desire to aid the girls in obtaining the habilliments that go with a good pipe band, get in touch with Mr. Armstrong. He'll be glad to hear from you.

IN recent years, Edmontonians have been accustomed to cast their eyes toward Winnipeg's splendid auditorium, wherein concerts and other gatherings are

held, seeing ways and means of providing same, and he will be glad to hear from those willing to help. Above is a view of the band taken at one of its recent public appearances.

AVENIR NIZOFF, Edmonton pianist and composer, who recently gave a studio recital which included several of his own compositions, cut down the height of the building, thus requires less steel.

The building is as designed that can be converted quickly from a hockey rink for use by a horse show, circus, skating carnival, industrial exhibition, convention, agricultural show and many other purposes.

Also, there is provision in the subsidiary building for public committee rooms, handicraft exhibits, and other community activities.

AVENIR NIZOFF, pianist, appeared recently in a studio recital, at which there were present several of this city's musicians. The program was as follows: Toccata and Fugue in B Minor, Bach; Taming, Remo, Mozart; Ecossaise, Beethoven; No. 1, Chopin; Schumann, Op. 10, No. 1; and Variations on a Czech Dance Tune and Sonata No. 2.

THE University of Alberta has announced the results of the recent written examinations in music of the Western Board of Music in Alberta, as well as the practical examinations held in May in the University and at various local centres throughout the province.

Special Music
Service Friday, 8.00 p.m.—Young People's

Robertson United Church Scene of Hagar-Ingram Wedding

Pink and white peonies decorated Robertson United Church for the wedding Friday at 7:30 p.m. of Miss Nancy Ingram, daughter of the late Mr. and Mrs. H. W. Ingram, and Raymond Hagar, son of Mr. and Mrs. B. Hagar, all of Edmonton. The Rev. Angus J. MacQueen, performed the double-ring ceremony. Roy Collins played the wedding music.

Given in marriage by her brother, Herbert Ingram, the bride wore a powder blue crepe dress featuring a high neckline, cap sleeves and button back, complemented with long pink ribbons. She chose a pink and blue flowered veil and carried a nosegay of summer flowers.

Miss Margaret Higgins was bridesmaid, Victor Falkenberg was best man.

After the ceremony, a reception was held at the home of the bride and sister-in-law, Mr. and Mrs. H. G. Ingram, when Mrs. Ingram and Mrs. Hagar received with the wedding party. Set in a cutwork cloth, a three-tier wedding cake flanked by vase of red peonies, centred the bride's table. Mrs. A. Lawson, Mrs. M. Wray, Mrs. C. Davies, Mrs. M. Duff and the Misses Margaret Thomas, Marjorie Guthrie and Marjorie Aldridge assisted at the reception. William Duff proposed the toast to the bride.

Later the couple left for a honeymoon trip to Jasper, the bride

Wed at Beth Israel Synagogue

travelling in a military colour adorned suit with contrasting powder blue accessories. Upon their return, Mr. and Mrs. Hagar will reside in Edmonton.

Milton-Pyle Vows Pledged

First Baptist Church was the scene of the wedding Wednesday of Miss Ruth Pyle, niece of Mr. A. N. Pyle, of Hardisty, and Frederick C. D. Milton, son of the Rev. and Mrs. A. J. D. Milton, of River View. The Rev. James Young, assisted by the bridegroom's father, performed the ceremony. Mrs. F. Barbour Smith played the wedding music, and during the signing of the register, Miss Jean Gardner sang "All Joy Be Thine."

Given in marriage by F. E. Alvar, the bride wore a blue dress-maker suit featuring dolman sleeves and white accessories. She chose a corsage of American Beauty roses.

Miss Pyle, sister of the bride, was bridesmaid. John Milton, brother of the bridegroom, was best man.

After the ceremony, a reception was held at the home of the bride and sister-in-law, Mr. and Mrs. A. N. Pyle, and the bridegroom's mother received with the wedding party. A three-tier wedding cake, flanked by lighted vases of red peonies, centred the bride's table. Mrs. B. Barker poured tea and the Misses Pyle, Harriet Barker and Dorothy Nakovich assisted in serving. Mr. Young proposed the toast to the bride.

After a honeymoon at Sylvan Lake, the couple will take up residence in Edmonton.

MR. AND MRS. HARRY ESTRIN, who were married at Beth Israel synagogue Wednesday. The bride is the former Miss Lucy Stankovic, daughter of Mr. and Mrs. Stankovic, and the bridegroom is a son of Mr. and Mrs. Louis Estrin, all of Edmonton.

United Farm Women Groups Report Activities at Meet

The United Farm Women of the department of extension, on present day problems of young people.

The conference made arrangements to hold a constituency clinic at Clear Lake on July 20. Mrs. W. F. Redmond, past director, gave a talk.

An address was given by S. C. Hilliard, agricultural secretary of the department of extension, on present day problems of young people.

Mrs. C. Taylor, former director and now second vice-president, spoke to the delegates. She then challenged to all the delegates in the form of a letter in the present and future to rest on the laurels of the past.

Delegates heard a talk by Miss Louise Spencer on the national convention of the Farm Radio Forum recently held in Toronto.

Mr. Davis Spencer of the cereal chemistry division of the University of Saskatchewan, gave a talk on his new work in developing and testing new varieties of wheat.

Delegates learned with regret that Mrs. Murray, director, would be unable to continue to act in that position. The conference is recommending that Mrs. Warnock take her place.

Resolutions were passed urging that the provincial government bear at least 50 per cent of the cost of education; also that the government pay all medical and hospitalization costs of cancer. Municipalities are being asked to look into the feasibility of building homes for the aged. They also protested daylight saving time.

The government is being urged to proceed with the development of a comprehensive system of rural electrification, publicly owned and operated.

Feminist UPWA members met on July 6.

The workers in the parishes and missions throughout the diocese held their final report meetings Friday evening, and are scheduled to hold their second report meetings Monday evening. Mr. Martin said that when all returns are received, it is expected that the final total will exceed the \$400,000 minimum objective by a very substantial margin.

Given 25 Years
For Grain Theft

MOSCOW, July 7.—(AP)—News-paper reports said yesterday that seven thieves who stole 111 tons of grain from a southern elevator received terms of three to 25 years several were sentenced. Two persons who stole vegetables by night from Moscow gardens got six and eight years respectively.

PERSONALS

Mr. and Mrs. George Moran arrived Friday from Birmingham, England, to take up residence in Edmonton. Mrs. Moran is the former Miss Betty Freeman.

Dr. and Mrs. Ross Upson returned to their home in Calgary Wednesday, after spending a few days here, guest of Mrs. Upson's parents, Mr. and Mrs. W. J. Little.

Miss Sally Green, who has been the most for the past three weeks of her brother and sister-in-law, and James Green, returned recently to her home in Nottingham, England.

Mr. and Mrs. J. W. Bates announced the engagement Saturday of their eldest daughter, Charlotte Bruce to Ernest Power, son of Mr. and Mrs. J. E. Power, all of Edmonton. The wedding will take place at Chalmers United Church August 2 at 7 p.m.

Peter Miss Joyce McLean, bride-elect, who is leaving to reside in Montreal, a dinner was held recently at the Coronet hotel when members of the staff of the Family Allowance office met. A presentation of money was made to the guest of honor.

Miss Betty Straining of Calgary, will be the training of a civilian intern in the University hospital.

Mrs. William Hattie of Toronto, and her daughter, Sandy Reay, of Edmonton, returned to their homes recently after spending several days in Calgary.

Mr. and Mrs. A. H. Grant announced the engagement Saturday of their daughter, Maxine Helen to the Rev. Eugene H. Grant, son of Mrs. H. E. Grant, all of Edmonton.

Mrs. W. L. Morrison, accompanied by her young son Billy, of Lethbridge, are visiting with Mrs. Morrison's mother, Mrs. W. J. Sheppard.

Mr. and Mrs. Norman Williams of Flaxcomb, Sask., are visiting with Mrs. Williams' brother, Charles E. Moffet and Mrs. Moffet.

Miss Helen Grant and Miss June Moffet are holidaying at Lethbridge, Sask., and will return home where they will visit friends and relatives in Los Angeles, San Francisco and Seattle.

Mr. and Mrs. George Forber, of Grimsby, announced the engagement Saturday of their daughter, Anne Elizabeth Katherine, to Robert Alexander Saunders Dingwall, son of Mr. and Mrs. Robert M. Dingwall, of Edmonton. The wedding will take place in Robertson United Church, September 1, at high noon.

Honoring Miss Jane Sakar, a bride-elect of July, the Misses Shirley Disher and Miss Fivins entertained at a miscellaneous shower at Miss Fivins' home Friday evening. Gifts from the 20 guests were presented to Miss Sakar in a decorated basket.

Montjoy-Wallis Wedding Held

MANWELL, July 2.—In a double-ring wedding ceremony in Christ Church Wednesday at 1 p.m., Miss Mary Wallis, daughter of Mr. R. V. Wallis, of Edmonton, became the bride of Stuart Alexander Montjoy, son of Mr. and Mrs. J. A. Montjoy, of Chatham. The Rev. Vincent P. Cole performed the ceremony.

For her wedding the bride chose a four-train gown of white sheer tulle with a full skirt and long train. Her accessories were a long veil and a nosegay of white flowers. A band of orange blossoms held her long veil in place and she carried a bouquet of deep red roses.

Mrs. Vincent P. Cole attended the bride as matron-of-honour. Her sister, Mrs. E. P. Tenny, was best man.

After the ceremony, a luncheon for the wedding party was held in the church lounge. Set in white, a three-tier wedding cake, flanked by white lilies and vases of white flowers, centred the bride's table. Miss Joan Hubbard assisted at the luncheon and Mr. Cole proposed the toast to the bride.

Canadian Food Prices Below Those in U.S.

OTTAWA, July 5.—(CP)—Although the gap between Canadian and United States prices narrowed during the spring months, Canadian dollar still goes further than its U.S. counterpart, the prices board reported Thursday.

IN THE LATEST of a series of reports comparing U.S. prices with those in Canada, the bureau found food prices showed the biggest change during the survey period, from June 2 to 18.

In the U.S., food prices had risen "very sharply" since the April survey. However, decreases were recorded in milk, coffee, butter, eggs, cheese, lamb, vegetable shortening, corn syrup and soap.

In Canada, the survey showed increases in the price of butter following gradual removal, vegetable shortening, sugar, coffee, roller oats, meals and soap. Slight seasonal increases were noted for eggs and potatoes, and a few scattered decreases were reported in prairie raisins, corn syrup, strawberries, jam and canned peaches.

"NET RESULT" of all these ups and downs in food prices, the bureau said, "is that Canadian prices are still lower than those in the U.S. for all food items surveyed except coffee and corn syrup, sugar, tea and lamb now almost equal in the two countries."

The survey is conducted by comparing prices in Canadian and U.S. cities similarly situated from a geographical point of view. Cities included: Vancouver, Toronto, Detroit, Cleveland, Winnipeg, St. Paul, Minneapolis, Boston and Seattle.

The Canadian bureau, the report said, "would still be well off 25 or 30 cents a quart in most cases, while the American consumer had to pay from 20 to 30 cents in terms of the American quart."

Top prices reported for butter in Canada in the June survey was 56 cents a pound, while in the U.S. butter was 62 to 63 cents a pound.

NO ATTEMPT was made to cover the entire budget of the average consumer, but a list of commonly-used food and representative clothing items was checked, with special emphasis on the most commonly-purchased items in the medium-price range in both countries.

3rd Oldest Citizen

OF B.C. Dead at 103
VICTORIA, July 5.—(CP)—Believed to be the third oldest citizen of British Columbia, Mrs. Mary Pearce, 103, died here Thursday. She was the widow of Frederick Pearce, who died 28 years ago in Melbourne, Australia. Mrs. Pearce was born in Ipswich, England. A daughter, Mrs. Kate Pearce of Vancouver survives.

Recorded Radio Programs Rapped

OTTAWA, July 5.—(CP)—Walter H. Burrows, Canadian executive officer of the American Federation of Musicians, urged Thursday that the CRTC reduce the time radio stations are allowed to use recordings and asked that private radio stations be fined five per cent of their gross revenue on the development of local talent.

Testifying before the radio committee of the Commons, he charged that the "great bulk" of private radio station operators in Canada were "milking the stations for all they are worth and living on recordings and transcriptions."

The policies of private stations would not encourage the development of local talent. The stations worried more about the cost than the quality of the talent, CRTC stations, however, helped a great deal to provide employment through sustaining programs.

Mr. Murdoch said that during 1946-47, 1947-48 and 1948-49, the total revenue for the radio industry was \$10,444,721. The royalties on these to the federation amounted to \$1,624,480, of which only \$157 was paid by Canadian companies. The federation in its distribution of the royalties would pay \$1,000 to 31 Canadian locals and their 10,000 members.

dropped this session, Mr. King said he did not think there would be any real change in the radio industry. He said the radio industry would be held over.

Simple Rules for Good Chimneys

The chimney and flue of your heating plant or fireplace is to

proper size of which there are several standard dimensions.

A clean-out door at the bottom of the flue is recommended. It should be placed just above the basement floor, or if there is no basement, above the grade, so that it can be reached from the outside and easily removed.

It is better to have one flue serve only one heating device. Two or three openings on one flue destroy the draft and reduce the efficiency of the heating plant. A hot water heater or fireplace is used. It is best to have a separate flue for each.

Chimneys that are built within a house tend to draw better and a certain amount of draft is given off through the brickwork of the chimney. Where the chimney is placed on an outside wall, the draft is not always so good and some heat is lost.

To summarize: line the chimney with flue lining. Keep the flue as straight as possible; have the flue the proper size to secure a good draft and carry off the smoke. All chimneys should extend well above all trees or adjacent buildings to avoid downdrafts.

Inspect the chimney caps. Check if there is a broken cap the water is likely to seep through the crack into the brickwork below and from the front corner, freestanding wall and the brickwork be damaged.

A crooked chimney is not good, for chimneys should be straight as possible, and if there is a necessity to offset the chimney, the slope or draft should be quite gradual.

All chimneys are better if lined with a terra cotta flue lining of the

Guide to Home Builders

Small Homes of Originality

1947 Wheat Crop At Least Average

OTTAWA, July 5.—(CP)—Current conditions indicate that at least an average Canadian wheat crop this year is a "very distinct possibility," the statistics board said Thursday in its monthly wheat review.

Dealing with the wheat picture, the report said that there is information on growing crops comes forward it still appears that new information on the wheat crop year at least.

Portraits small compact homes are illustrated, complete with floor plans, in our new booklet for home builders. "Small Homes of Originality." Duplicate floor plans and detailed drawings of interior fittings are offered.

This house has four large rooms with five efficient and easily cared for, new economic conditions, new living standards, and greater demands on the time of the occupants evolve certain requirements.

To guide you in building your new house, let us list those things required as found by architects and builders here are some of the things people are thinking about.

Young couples and older folk desire small compact homes, easy and economical to maintain and operate.

People in middle life where the family is developing, require larger homes with more complete accommodations.

An extra room that may be used for a guest room or other purposes is desirable on the first floor. A laundry or bath is needed on the first floor.

People do not like to enter directly into the living room. They prefer a vestibule or small hall. It prevents drafts and chilling.

The attached garage is desirable and should be accessible.

Pat Dane Dorsey Seeking Divorce

HOLLYWOOD, Calif., July 5.—(CP)—Actor Pat Dane Dorsey, 34, plans to leave for Reno, Nev., soon to divorce "troublemaker" Tommy Dorsey, her lawyer said yesterday. The Dorseys were married about four years ago.

SAFETY FIRST

THE Teenie Weenie village was thrown into the greatest excitement recently when one of the Teenie Weenie babies fell into the sauce dish which the community uses for a swimming pool. The little chap climbed up the steps to the diving platform and then promptly tumbled off the springing board. Fortunately, the Cowboy happened to be near at the moment and he jumped into the pool and saved the tot's life. He dragged it out of the two inches of water in the dish just in time. He held the baby by the legs and shook nearly two drops of water out of it before it could breathe.

The Teenie Weenie women were greatly upset by the accident and they were inclined to blame the Policeman for not keeping an eye on the children.

"My word!" protested the Policeman. "I can't keep all the ants and bugs out of the village and be nursemaid too. What we need is more policemen."

"What we need for the children is a place to play," said the Turk. "We should fix a wading pool and make a sand pile for them so they won't want to get into our swimming pool. A mud puddle would be nice."

"OH, DEAR, NO!" put in one of the women. "It's hard enough to keep the children clean without adding a mud puddle to the dirt they collect."

"We'll make a little wading pool for them," said the Cook.

"That's a good idea," agreed the Turk. "I found a little peanut the other day, and I'll make a sailboat for them to play with."

The TEENIE WEEENIES

BY WM. DONAHEY

"I'll provide them with a little shovel and I'll make a bucket out of the top of a tube of tooth paste I found at the dump where the big folks throw their trash," added the Cowboy.

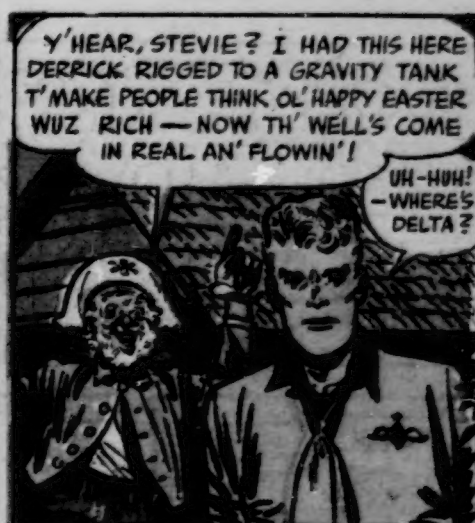

"Yes," said the Policeman, "we can get a couple of thimbles of sand for them to play in. That ought to keep them occupied."

The men searched for a suitable vessel for a wading pool. They considered a sardine can, but the Turk thought it would rust too soon. Finally they dis-

covered the very thing one day after a lot of trash had been left at the dump. They found a butter chip, which all the grown-up Teenie Weenies considered a perfect wading pool for the children. The men loaded it into the Teenie Weenie cart and brought it to the village. They set it beside the big swimming pool and now the Teenie Weenie children have their own little pool. The Sailor has promised to teach the youngsters to swim as soon as they are old enough.
